Saves A Woman's Life.

To have given up would have meant death for Mrs. Lois Cragg, of Dorchester, Mass. For years she had endured untold misery from a severe lung trouble and obstinate cough. "Often", she writes, "I could scarcely breathe and sometimes could not speak. All doctors and remedies failed till I used Dr King's New Discovery for Consumption and was completely cured." Sufferers from Coughs, Colds, Throat and Lung Trouble need this grand remedy, for it never disappoints. Cure is guaranteed by Clay City Lbr. & Stave Co.

Hon. F. A. Hopkins Speaks at Frenchburg.

Hon. F. A. Hopkins, Democratic Candidate for Congress, spoke at Frenchburg on Wednesday, June 18, during circuit court to a large and appreciative audience. By his manly bearing he made a deep and lasting impression upon their minds, and left many friends to wish him success.

He is a fine speaker—up-to-date on current issues and the equal of any man in the district on the stump or in the forum. Although his speech was strong and forcible in the arraignment of the Republican party and its methods in favoring trusts, monopolies, concentration of wealth, and of favoritism to the banking and moneyed powers, as well as its unjustified and inhuman assaults upon a helpless and unoffending people, whose only crime is their love of and desire for liberty, still it was so fair and free from abuse that the Republicans present could not take offense at anything he said, but were so impressed with his candor and reasoning that many of them went away weaker in their faith than they were before they heard these plain and telling truths.

Such speeches are calculated to do much good for the cause of Democracy, for they not only strengthen the convictions of our own people, but catch the ear and address the reason of many thinking Republicans who desire fair play and honest government, and have been taught to believe that their party alone could promote this end, but now begin to realize that their idols can no longer be

trusted, for dependent upon their success, they neglect the welfare of the people. They look to their own interests and open into the hands of one who is able and willing, by an active aggressive canvas to carry it to victory, and fully holdup and increase our majority and thereby make the election of our Judge and State officers easier next year. While on the other hand, a slow, dragging campaign will be followed by a diminished majority, making fresh burdens for the party in coming elections. Nominate Mr. Hopkins and it is all over but the shouting for no Republican in the District will want the nomination against him; as that one cannot meet him on the stump or anywhere else; and this pleasant and winning canvas he is now making will be followed up until the polls are closed in November, and its result will be counted in an increased majority for the Democratic party.—Mt. Sterling Advocate.

He is making a house to house canvas of the district, visiting the houses of the poor as well as the well-to-do, and studying the needs of all those whom he will represent, and it is not strange to say from all over the district the word comes that he is the choice of the people, who want to see that no combine shall control the convention and defeat him, as in this way alone do his most sanguine opponents hope to defeat him. Th's being an off year and there being no other officer to elect, the

burden of the campaign will have to be borne by the candidate, and for that reason the Democrats should look well to their interests and see that they place their banner in the hands of one who is able and willing, by an active aggressive canvas to carry it to victory, and fully holdup and increase our majority and thereby make the election of our Judge and State officers easier next year. While on the other hand, a slow, dragging campaign will be followed by a diminished majority, making fresh burdens for the party in coming elections. Nominate Mr. Hopkins and it is all over but the shouting for no Republican in the District will want the nomination against him; as that one cannot meet him on the stump or anywhere else; and this pleasant and winning canvas he is now making will be followed up until the polls are closed in November, and its result will be counted in an increased majority for the Democratic party.—Mt. Sterling Advocate.

The Balance Wheel

Look inside your watch a moment. The balance wheel is making 18,000 vibrations an hour, if it's in good condition. If the movement is sluggish, there's something wrong. It will move 3,558 miles in a year, and requires less than one-tenth of a drop of oil to make it run. But it needs that little badly. The least degree of friction on the bearings alters the motion. Don't take chances. Let me clean and oil and put your watch in order for a year. It will pay and satisfy you.
